EDUCATION

B.Tech, Information Technology

Maharaja Agrasen Institute of Technology, Delhi

2021 - 2025

TRAININGS

Web Developer Bootcamp

udemy, Online

Jun 2023 - Sep 2023

PROJECTS

Admin Dashboard-(Course Selling Application)

Feb 2024 - Mar 2024

https://github.com/Saurav50/Admin-DashBoard-Course-Selling

This is a web application for selling and purchasing courses. The backend is built using Node.js and Express, with data stored in MongoDB. The application supports both admin and user functionalities, allowing administrators to manage courses and users to sign up, log in, purchase courses, and view their purchased courses.

A Quotes Posting App

Oct 2023 - Oct 2023

https://good-quotes.vercel.app/

Developed a dynamic web application, providing an intuitive user interface for posting and viewing quotes.
• Implemented sorting functionality, allowing users to arrange quotes.
• Designed a user-friendly commenting system, enabling users to leave feedback and engage in discussions.

Meals Kart, a Meal Ordering App.

Aug 2023 - Aug 2023

https://meals-kart-e6wev1zof-saurav50.vercel.app/

• Implemented state management and interactive features using React Js, enhancing the user experience.
• Designed and implemented a cart feature, allowing users to add, remove, and modify their meal selections.
• Integrated FireBase for backend services, including real-time database.

Chat Application

Apr 2024 - Present

https://github.com/Saurav50/Chat-App

Building and Deploying a Real-Time Chat Application with JWT Authentication Using the MERN Stack and Socket.io

Features
Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js) + Socket.io + TailwindCSS + Daisy UI
Authentication & Authorization: Implemented with JWT for secure user interactions
Real-time Messaging: Utilizing Socket.io for instant message delivery
Online User Status: Track and display user availability using Socket.io and React Context
Global State Management: Managed efficiently with Zustand for seamless user experience
Error Handling: Robust error handling mechanisms on both server and client sides
